Mr. Bryan—"Hello, Central! I want to talk to the American workingman." Central—"He's at work and very busy, Mr. Bryan; ring off, please."

IN 1894 we mined \$186,000,000 worth of coal. In 1899 \$253,000,000 worth. The value of all our mineral products in 1894 was \$500,000,000, in 1899 \$700,000,000.

THE Courier-Journal says: "In answer to inquiries, Attorney General BRECKINRIDGE has given the opinion that the Democratic emblem should appear first upon the ballots."

Judge BRECKINRIDGE doubtless has his reasons for giving such an opinion, remarks The Louisville Post, but the law passed by the Legislature now in session states specifically that precedence shall be given on the ballot to the party having cast the highest number of votes at the last preceding election. In that election the vote as certified by the Goebel State Board was:

For Taylor.....193,714  
 For Goebel.....191,331

Majority for Taylor... 2,383

With the figures staring him in the face it is a wonder that Mr. BRECKINRIDGE, as Attorney General, should express such an opinion as that attributed to him.

THE figures published by the Agricultural Department showing the comparative value of the horses, mules, cattle and sheep in the country on January 1st, 1896, and on January 1st, 1900, serve to illuminate one of the most remarkable situations in the industrial history of this or any other country. According to these figures, says The American Economist, the total value of these animals on January 1st, 1896, was \$1,541,396,339, while on January 1st, 1900, the total value was \$2,042,840,813; an increase of \$501,444,474, or of more than 32%, for which McKINLEY and the Protection of American industries are responsible. When the states of the Union are asked what they think of the Administration, what they think of the industrial policy which has brought about this wonderful increase in the value of farm animals, which has virtually put half a billion dollars into the pockets of the American people in this one direction alone, every one of them ought to give the answer which little Vermont, whose share of the increase was nearly \$3,000,000, gave the other day. Fortunately for us all, a sufficient number of them will give that answer to insure the re-election of President McKINLEY and the continuance of the American system of Protection. But it ought to be unanimous, for, according to the figures, every state in the Union has had its share of the increase.

For sprains, swellings and lameness there is nothing so good as Chamberlain's Pain Balm. Try it. For sale by J. Jas. Wood & Son, Druggists.

The last reports show that, commencing with 1854, the growth of railroads in the United States has been from 16,720 miles to 191,388 miles, an increase of 174,678 miles. The present mileage of roads in the United States is 11 1/2 times greater than it was in 1854.

Don't be deceived or humbugged by people who claim the discovery of some hitherto unknown herb or root in swamps, or on some mountain or prairie, for the cure of kidney and bladder trouble. Any doctor or druggist will tell you that such claims are fraudulent. Foley's Kidney Cure simply contains remedies that are recognized by the most skillful physicians as the best for these complaints, so don't be credulous or foolish. J. Jas. Wood & Son and Armstrong & Co.

**GREW EXCITED.**

A Young Man Endeavors to See His Girl Through the Telephone.

An amusing incident happened last night in a certain drugstore not many squares from THE LEDGER office. A young man rushed in, almost pushing in the front of the building in his hurry, and asked the proprietor if he could use the 'phone a moment. The man who pays the toll assented, and with a vigorous twist of the crank he grabbed the hello-back part of the machine, threw it up against the side of his head, and told Central to give him the desired number. Presently he was heard to say "Hello!" in a very sweet voice, and then his tones were endearing in the extreme.

He stood making goo-goo eyes at the talking machine and drinking in every sound, all the while saying bon-bon things and scraping one foot on the floor. Presently he fished a watch out of his pockets, scraped it on his trousers and held it up to the receiver, looking as though he were trying to see the fair-haired chocolate drop at the other end of the wire. This was too much for the crowd of rubbers, and he was compelled to ring off without getting to see through the "phonine" machine.

**ANSWER IT HONESTLY.**

Are the Statements of Maysville Citizens Not More Reliable Than Those of Uter Strangers?

This is a vital question. It is fraught with interest to Maysville. It permits of only one answer. It cannot be evaded or ignored. A Maysville citizen speaks here. Speaks for the welfare of Maysville. A citizen's statement is reliable. An utter stranger's doubtful. Home proof is the best proof.

Mr. Robert Wise of Forest Ave. says: "Doan's Kidney Pills are from the evidence I have, a sure cure for backache. I say this not only from my own experience but also from that of several others who have received the greatest benefit from the treatment. I suffered from pains in the back, a disordered condition of the kidney secretions and symptoms of an inflamed condition of the bladder. Procuring Doan's Kidney Pills from J. Jas. Wood & Son's Drugstore, corner of West Second and Market streets, they gave me quick and effective relief."

**THE CLOSING DAY.**  
 Annual Meeting of the Kentucky  
 Horse Breeders' Association  
 Was a Successful One.

Lexington, Ky., Oct. 13.—Friday was the closing of the 28th annual meeting of the Kentucky Trotting Horse Breeders' association, and it was a most successful one. Ten days of almost perfect weather, a great track, magnificent fields of horses and grand sport. The attendance has been large each day and both socially and financially the meeting has been one of the greatest in the history of the world famed institution. A number of records have been beaten and many fast miles have been trotted and paced.

The weather was cool and pleasant for the closing day, and fully 4,000 people gathered to witness the events. There was three races on the card with the Blue Grass stake, \$2,000, for 2:19 trotters as the leading feature, and Joe Watts, selling at \$25, to \$40 for the field, was the favorite. Cornelia Belle was also well thought of. It turned out to be a hard contested five heat race and one worthy the occasion. Watts took the first heat in a happy style and then Cornelia Belle captured the second and third, then dropped the fourth to Palm Leaf. She won the fifth and race with a hot finish with Palm Leaf. The race in every heat was between the three named.

The 2:22 trot for a purse of \$1,000 proved to be an easy thing for the New England mare Dolly Bidwell, who clearly outclassed her field, and won in straight heats from Free Silver and Telltale, the fight being principally between the latter two for place. All three showed race horse quality and put up a great contest. Nonamie outclassed all the others in the 2:20 pace and won as she pleased in straight heats, the contending horse in each heat being Alfie. The good daughter of Bourbon Wilkes, Nonamie, is a race mare of rare quality and it will take a good one to beat her in her class next year.

**ELECTION BILL NO. 1.**  
 By a Vote of 51 to 47 the Kentucky  
 House Has Rejected It—  
 Bill No. 18.

Frankfort, Ky., Oct. 13.—By a vote of 51 to 47 the house at noon Friday rejected the election bill No. 1 sent it by the senate. The bill provided that the county election boards should be named by the county judge of each county, and that the circuit clerk should be the third member, or "umpire," of the board. This leaves house bill No. 18, as amended by the senate, the only one before the house.

**Litigation Is Ended.**
